05227-US-1**CONTAINS MORE OCTANE- BOOSTING INGREDIENTS.****TRACK TEST DEMONSTRATES AN EQUIVALENT 40-POINT INCREASE** - Testing was conducted to compare timed 0 to 70 intervals using three gasolines. Gasoline A was pump grade 87 Octane Regular. Gasoline B was pump grade 91 Octane Premium. Gasoline C was the same pump grade 87 Octane as candidate A, but added to maximum levels with Dyno-tab® Octane Booster. Timed results show candidates B and C were 9.2% faster than A.**Solvent**

Boosting
Ingredients****9.2% Increased Acceleration
with Dyno-tab®**

	From 0 to 70 MPH
A - 87 Octane - untreated	17.57 seconds
B - 91 Octane - untreated	15.95 seconds
C - 87 Octane with Dyno-tab® Octane Booster	15.95 seconds

LABORATORY TESTS DEMONSTRATE 17-POINT INCREASE - ASTM D-2699 tests, conducted at Core Laboratories in Houston, Texas compared major aftermarket bottled octane boosters to Dyno-tab® using 91 octane reference gasoline (RON). The maximum street-legal dose of 2 Dyno-tab® tablets beat 8 well-known brands. Full results are available for review at www.dynotab.com.**Brand Results**

Directions: Add 1 or 2 tablets for each 16 gallons of gasoline/petrol, depending on desired results. See directions for **NO-TOUCH FUNNEL** below. Dyno-tab® Octane Booster is designed for periodic use when maximum power, performance and acceleration are desired.

Detach upper right side of card at perforation.

Squeeze remaining top of card to form funnel.

Insert funnel into fuel tank opening. Push to open trap.

While holding funnel, push tablets out back and allow to fall through funnel.

KEEP AWAY FROM CHILDREN**WARNING: FLAMMABLE.** Keep away from heat, flame and sparks. **HARMFUL IF SWALLOWED.** If swallowed, drink 1 to 2 cups of water or milk and call physician immediately.
